Pensions for Workmen in Austria.

Under the provisions of the Austrian poor law, at 50 years of age a man may claim from his state or commune a pension equal to one-third of the daily wages which he had received during his working years. The amount varies from 3 to 6 florins a month. In Vienna alone there are 10,000 persons who receive these pensions from the city.

She Had Been There.

Perdita—You haven't the faintest idea how much I love him.
 Penelope—Oh, yes I have—I used to love him that way myself.—Brooklyn Life.

The Universal Suffrage in Austria.

The success of the Belgians in wresting universal suffrage from the grasp of the ruling classes seems to have inspired the Austrian workmen to labor for a similar result in a similar way. The suffrage in Austria is now given to all who pay a minimum of five florins in direct taxes. To make it universal is now the avowed object of the leader of the workmen's party, who three weeks after the May day demonstrations in the prater issued a sort of appeal to the country and particularly to the laboring classes on the subject. The design is to foment an agitation which will assume huge proportions by the time parliament meets in the fall, when, it is hoped, the course of events in Brussels may be repeated in Vienna.—New York Post.

Statistics of Special Sessions.

There has not been a special session of congress for 14 years, and the one which will assemble Aug. 7 will be the twelfth in the history of the government. In the earlier decades of the century special sessions were more frequent than they have been of late, because of threatening crises in our relations with foreign powers. Jefferson called congress together twice in extraordinary session during his administration, and Madison twice also, once to declare our second war of independence. But the most momentous subject which any special session was called upon to deal with was the opening of the rebellion. President Lincoln convened congress July 4, 1861.

A New England Slave.

The Bangor (Me.) News has found a slave in that city. This man is the driver of a horse wagon and is stationed at a little brick house on Hammond street. The Bangor fire department pays him \$40 a month, and he stands eternal watch, day and night, having no vacation or holidays. He occupies the station alone and, The News says, cannot leave to get a meal or change of clothing unless he hires some one to take his place, and then he is liable to be called on as usual. But probably if this man should give up the job there'd be a score of applications for the place.

A clever story whose hero is a young rector speaks of his removing his "bitterness" during a protracted walk. "I wantonly put it on his head," says the author, with a laugh. "I knew he ought not to roam the country in that head-gear, but it was so becoming that I let him do it."—New York Times.

"Cleanliness is next to Godliness."

Don't You Know?

that you can secure a most immediate relief from Indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with Indigestion and the like. It is the inaction of the Liver that causes Indigestion, and that fullness; also Constipation, and those Bilious Headaches. Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unfailing and purely vegetable.

From Rev. M. B. Wharton, Baltimore, Md.
 "It affords me pleasure to add my testimony to the great virtue of Simmons Liver Regulator. I have had experience with it, at occasional intervals for many years, and regard it as the greatest medicine of the times. So good a medicine deserves national commendation."

A New Departure.

Not a Dollar Need be Paid Until Cure is Effected.

RUPTURE, Varicose, Hydrocele, Piles

Fissure, Hemorrhoids, etc., cured in from 30 to 60 days, without detention from ordinary business. No knife, ligature or caustics used. Also, all FEMALES and CHRONIC Diseases successfully treated by new and scientific methods.

THE SACRED RESERVE FUND.

When specie payment was resumed by act of congress it was generally understood that a reserve fund was created by the act. At any rate \$100,000,000 in gold coin was accumulated in the treasury with which to redeem government notes if any should be presented. This one hundred million was deemed sufficient to float about \$250,000,000 in greenbacks and maintain them at par with gold. Under Republican administrations as well as under Cleveland's first administration, this reserve fund was held sacred. Not a dollar of it was disturbed upon any account. It was as useless in the treasury as the tons of silver bullion now stored there. No one presented greenbacks to be redeemed in gold and not a dollar of it was paid out for any other purpose. It was generally understood that it could be used only to redeem greenbacks and that the laws of congress prohibited its use for anything else.

Now it seems that the country misunderstood the law relating to the reserve fund. Secretary Carlisle encroached upon it to pay treasury notes which the law authorized him to redeem and orders have just been issued by the treasury department to all sub-treasuries to pay out gold over the counters from this fund, the same as other kinds of money. The effect of this order is said to be to practically place the gold reserve among available treasury cash assets.

It appears from this that an act of congress affecting \$100,000,000 in gold has been misconstrued since its passage nearly twenty years ago, and that gold, which has been kept in the treasury vaults all these years for a specific purpose, can be used to pay the ordinary obligations of the government.

DISSATISFIED CONGRESSMEN.

Congressman Springer of Illinois is dissatisfied with his removal from the committee on ways and means to that of banking and currency. That he is surprised, he says, is only a feeble expression of the truth. He had no intimation whatever from Speaker Crisp that he would be deposed from the chairmanship of the ways and means committee. He goes from work to which he has devoted much study and the best years of his life to business to which he has given but little attention. Springer was authority on tariff schedules and was credited with having formulated a bill since the election last November to change them to conform to his views of tariff reform.

Congressman Holman of Indiana, the Great Objector, has also been surprised by the speaker. He has been in congress almost continuously for thirty-four years, and much of that time on the committee of appropriations. Now he is unceremoniously deposed from the chairmanship of that committee and appointed chairman of the committee on Indian affairs. This, of course, is not satisfactory to the Old Watch Dog of the Treasury, as he has been styled, but like Springer his wishes were not consulted by the speaker.

A SILVER SYNDICATE.

Chairman Smith of the finance committee of the French senate is visiting the silver producing regions of Colorado and Utah. The object of his visit is said to be to establish a branch of the French Bank at Denver to be controlled by Colorado capitalists with a manager from Paris to represent the bank. The Bank of France will agree under certain conditions to furnish from \$50,000,000 to \$100,000,000 to carry all the silver produced in Colorado until the price is satisfactory.

There are only twenty large smelters in the country, and if they combine the silver product can be controlled. If France can hold the product of those smelters it could dictate the price of silver to England for use in India and compel all silver using nations to come to its terms. The scheme meets with favor in Colorado and if congress does not pass a free coinage bill it is likely to be carried into effect.

The third international convention of the Keeley League is to be held in Chicago next month. Temperance organizations of all kinds have been invited and entire Keeley clubs from some localities will go to Chicago in a body. It is estimated that there will be 5,000 delegates, and that over 25,000 graduates from Keeley institutes will celebrate Keeley Day at the World's Fair.

Long speeches on the silver question closed in the house of representatives yesterday. Under the rule only five minute speeches will now be in order, until voting begins. Only one Republican, Bowers of California, and he says he is done with the party, has spoken in favor of free coinage.

GOVERNOR BOIES of Iowa has consented to run for governor. He desires to retire from politics but his personal feelings are subordinate to the wishes of the Democratic party. Boies has been twice elected governor of Iowa, but has not yet served four years.

CONGRESSMAN NEWLANDS has been appointed on the committee on mines and mining, and also on the committee on irrigation of arid lands. The silver men hoped he would be appointed on the committee on coinage.

THE IOWA DEMOCRATS.

They Are Assembled in State Convention.

APPEASING THEIR HUNGER.

People Fleeing in Large Numbers From Yellow Jack in Georgia.

IOWA DEMOCRATS.

Business Depression Attributed to Republican Legislation—The Committee on Resolutions Not Favorable to Silver.

DES MOINES, Aug. 23.—The Democratic state convention assembled here to-day. Volmer of Scott county was chosen temporary chairman. He said that while an army of the discontented and unemployed swarms over the land there stalks up and down in their midst the Republican pharisees, with the assurance of inbred hypocrisy, pointing his finger at us and our party as the authors of this wide-spread misery. It is high time we repudiate this foul slander and stamp the life out of this crawling serpent of Republican deception. We live, it is true, under a Democratic administration, both state and national; but both in the state and nation we are cursed by Republican laws.

Let us not forget, nor permit the people to forget, that we have "the blessed McKinley bill," that latest but most developed offshoot of the poisonous plant—protection. Let us not forget nor permit congress to forget the unanswerable thesis of sound political economy that our industries can never get on a healthy natural basis until this noxious weed is destroyed, root and branch. Panics are the necessary outgrowth and never failing accompaniments of this artificial system, which stimulates growth abnormally in certain directions, while it prevents expansion in others and finally compels the pampered favorites to shake their own slime in ever-recurring spasms of over production.

Let us not forget, especially that cowardly makeshift, denounced by our national platform last year, the Sherman bill, discredited now by its own author, still stands upon our statute books. Like Essau, John Sherman sold his birthright for a mess of potage when he left his name to this unprincipled sellout; when to serve the trucking demagogism of his party, he threw to the winds the greatest financial reputation of the age in the last ineffectual attempt to capture votes for the Republican ticket by saving Harrison from the unpleasant necessity of vetoing the bill for the free coinage of silver. His name will go down to posterity linked with a law upheld by none and condemned by all as the great and sufficient cause of our present financial distress.

Our party is even held responsible for the condition of the treasury of the United States. Yet four years ago it went out of power leaving surplus revenues to an amount roundly stated of \$100,000,000 in the coffers of the national treasury.

When Secretary Carlisle, barely five months ago cast his eagle eye into the strong box at Washington, he found therein only the marks where Calico Charley had been scraping at the bottom of the bin.

Both the McKinley and the Sherman bills have got to go and the people will sustain us in the good work.

The committee on resolutions is conservative in its utterances and refer to the fact that Henry Stimson, a radical anti-silver man, was elected over a free coinage candidate for a committee man by an anti-silver opponent.

Governor Boies will be renominated by acclamation. He said he is willing to subordinate his private wishes to the expressed wish of the Democratic party.

Fleeing From Fear.

BRUNSWICK, Ga., August 23.—S. B. Harris is ill with yellow fever. The authorities are urging people to leave the city. Three thousand people are expected to get away. Every one who can do so is leaving the place for fear of the yellow scourge. The Macon board of health will enforce a strict quarantine, and passengers from Brunswick will be stopped by officials. A detention camp will be established near Waycross, where all refugees will be carried to pass the period of incubation of the yellow fever germs.

Appeasing Their Hunger.

MILWAUKEE, Wis., August 22.—The first outbreak on the part of unemployed laborers in this city occurred to-day, when a small mob started through the streets looting fruit stands and other places. Six of the leaders were arrested. In anticipation of further trouble an extra detail of police is kept at each of the several stations. The mob gathered in Court-house Park this morning. It was composed mostly of Polish and German laborers, and numbered 300.

THE MIDWINTER FAIR.

Ground for the midwinter fair will be broken to day in Golden Gate park, San Francisco. It is proposed to celebrate the event in a becoming manner. Retail merchants have agreed to close their stores in the afternoon and it is expected the schools will be closed that the children may see the ceremonies. There will be a grand military display and a large number of civic societies will join the procession, in which there will probably be a dozen or more brass bands. The first shovelful of sand will be removed by Director General de Young, and deposited in a silver box presented by Colonel Andrews. It is believed that several thousand dollars can be raised from the sale of the box, which in addition to the earth, will contain one of the first twenty-dollar pieces coined in San Francisco.

Telegraphic Notes.

The silver debate was resumed in the house yesterday. Henceforth under the rules only five minute speeches will be in order.

Bar silver was quoted in New York yesterday at 76 1/2 an ounce.

The Republican convention of Erie county, Pennsylvania, declared that the single standard would be ruinous to the business of the country.

In the four-round contest between Billy Plummer and George Dixon, Plummer was declared the victor.

Mrs. Mary Landrum died near Willington, Missouri, of what the attending physician says is genuine cholera.

Lee Mantle, appointed senator from Montana by the governor after the legislature failed to elect a senator has been refused a seat by a vote of 35 to 30. This settles the fate of the senators from Washington and Wyoming. The precedent established in 1793 in the case of Kenesha Johns, appointed by the governor of Delaware and recognized in the thirty-third congress, in the cases of S. S. Phelps and Jared W. Williams, has been adhered to by the majority.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

COCONA CREAM

Is the latest and best of all toilet creams, to render the skin soft, white and beautiful without injury to it. It is excellent for sunburn and to remove tan and freckles and other blemishes. Every lady should have a bottle and it may be had of Wm. Finninger, druggist.

DIED.

FREE—In Reno, Nevada, August 23d, 1893, Dr. Edward Free, a native of Canada, aged 51 years.

Ayer's Hair Vigor

Makes the hair soft and glossy.

"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have seldom seen the hair of any other person so well preserved as mine."—Wm. Henry Ott, alias "Mustang Bill," Newcastle, Wyo.

Ayer's Hair Vigor

Prevents hair from falling out.

"A number of years ago, by recommendation of a friend, I began to use Ayer's Hair Vigor to stop the hair from falling out and prevent its turning gray. The first effects were most satisfactory. Occasional applications since have kept my hair thick and of a natural color."—H. E. Basham, McKinney, Texas.

Ayer's Hair Vigor

Restores hair after fevers.

"Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to use Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."—Mrs. A. Collins, Dighton, Mass.

Ayer's Hair Vigor

Prevents hair from turning gray.

"My hair was rapidly turning gray and falling out; but after using Ayer's Hair Vigor has remedied the trouble, and my hair is now its original color and fullness."—B. Oakrup, Cleveland, O. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists and Perfumers.

NEW TO-DAY.

Lost. A merry-go-round, or between there and the residence of M. J. Curtis, a gold bangle breast pin with "Genie" engraved on pin and bangle. Finder will be suitably rewarded by leaving same at the residence of M. J. Curtis. aug22wt

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

BUSINESS LOCALS.

Hot lunch at Kert's every day, 15 cents. Pure ice cream fountain soda at Pinniger's, Virginia street.

Pure ice cream fountain soda at Pinniger's, Virginia street.

BREVITIES.

Miss Emma Gibbs has returned from the bay.

Cole Atherton, late roadmaster of the V. & T. railroad, is lying dangerously ill in Carson city.

Ed. Pratt, Clarence Sharon and J. J. Campbell came up from the bay yesterday morning and changed cars for Virginia.

A Boston judge has decided that a newspaper may publish a biographical sketch of a man, but not his portrait, against his wishes.

Hon. W. E. F. Deal and family of Virginia city returned yesterday from Santa Cruz, California, where they spent the summer.

An old fashioned covered wagon passed through town yesterday with a family of emigrants en route from Texas to California.

Nine recruits for the United States cavalry passed yesterday en route from Jefferson Barracks, Mo., to the Presidio, San Francisco.

It is said that the closing of the agency of the Nevada Bank in Virginia city does not affect the people as it was never an accommodating institution.

There will be a dance at Laughton's springs Saturday night, to which everybody is invited. A new platform has been built and the best music will be in attendance.

Bishop Andrews preached a good sermon to a large congregation at the M. E. church last night after which he left for Truckee to preside at the conference which meets there to-day.

Chamley Ross, who is down from Winnemucca says it is the liveliest town in the state and as proof of the assertion states that there are twenty-one saloons in the place two of which were recently opened.

The District Court will convene at 10 o'clock this morning, Judge Rising presiding. The case of Mrs. Fannie Cohn vs. Mrs. Bacon, foreclosure of a mortgage, is the first case on the docket.

J. M. McCormack, A. H. Manning and C. E. Clough returned from Susanville last evening. They left J. F. Condon of Verdi at Susanville as he was too ill to travel. He had an attack of cholera morbus.

Deputy Internal Revenue Collector J. H. Hoehn of Eureka arrived last night from an official visit to Carson, Virginia and Silver City. He says times are dull though at Silver city some of the mines are paying well.

The Chronicle says Virginia city is overrun with hoodlums. One was shot last Monday by a helper at the Nevada brewery and another night before last by Officer McGillen. They are a constant menace to the peace of the town.

A. B. Champion, editor of the Grass Valley Tidings, and Jas. C. Tyrrell of the Grass Valley Union visited Reno yesterday. The young men have been rusticated at the lakes and visited Reno to see the metropolis of Nevada.

The residence of N. P. Davis at Lovelock was burned last Saturday night. The Silver State says a growing town like Lovelock should lose no time in taking steps for protection against fire. It won't do to put too much trust in luck.

Peter Dalton, the well-known rancher, has generously donated a new bell to the Catholic church. The bell has been ordered from an eastern bell foundry, and will, as soon as it arrives be substituted for the cracked one now used in the church.

The Silver State says: "Interest in the state fair increases with each year and it is fair to presume that this year's will be ahead of any yet given in the quantity and quality of exhibits. The speed program is an unusually fine one and will bring some of the best horses on the coast to Reno. The fair begins on the 18th of September and concludes on the 28th."

A GIGANTIC CONFIDENCE GAME.

What it Will Finally Result in.

We are often told by the subsidized gold bug press, that all of our present financial difficulties are caused by lack of confidence, and the fear that we will adopt a silver standard, and the only way to restore confidence is to repeal the Sherman law unconditionally. This will restore our credit and we will be able to borrow everything we need.

As an illustration we will suppose that the Sherman law is repealed, confidence is restored, business reverses become a thing of the past and the bondholders and pawn brokers having the utmost confidence in their customers continue to take new interest bearing notes for interest past due. And we will suppose that this confidence game is uninterrupted by the "calamity howlers" for a century, and what is the result? It is generally conceded that the interest bearing debts of the people and corporations in the United States amount to more than \$30,000,000,000. On at least one-half of this debt the people are unable to pay the interest except by more promises to pay. Confidence being restored the bondholders prefer to have the interest paid in this way, and the ability of their customers to write promissory notes is unquestioned. By the end of a century the heirs of these thrifty bondholders would have in their possession in promises to pay, all of the earnings of \$15,000,000,000 at compound interest, which at the low rate of six percent, compounded monthly, would amount to the snug little sum of more than \$7,500,000,000,000. True it would all be in promises to pay, but confidence being restored by the demonization of silver, everybody would be satisfied. And if the rate of interest did not satisfy the bondholders they could increase the rate, compound it oftener, and if that did not increase the debts of the people fast enough, they could compound the interest in advance. The people would be willing to gratify them as long as their confidence held out, for the people might as well owe quintillions or sextillions of promises to pay, as to owe trillions; it would only be a question of a few more figures and a little more confidence. But, if, on the other hand, some "calamity howler" should set up a dismal howl about his enormous debts and at the same time give a hint of repudiation, confidence would be shaken so, that even the demonization of gold could not restore it, and wholesale foreclosures would result. The European bondholders owing to their superior means of enforcing collection, hold the first mortgage on our country and would absorb everything in sight to satisfy the debt, while our own bondholders and pawn brokers would get left. Truly a confidence game that can be interrupted by the wall of a "calamity howler," is a dangerous game for the people to invest in. What the people need, is not a confidence game so they can increase their borrowing capacity, but a monetary system that will enable them to pay their debts, the bondholding aristocracy to the contrary notwithstanding.

FARMER.
A CONVERTED GOLDBUG.
The New York Recorder Arguments for Free Coinage.

Gold has been bulled up and silver has been bulled down. The whole thing has been a swindle on the working people of the world.

The New York Recorder, which two weeks ago renounced its goldbug heresies and declared for free coinage, uses the following arguments which, though not new in Nevada, are having a beneficial effect in the east:

It is just as dishonest to scale a debt up as it is to repudiate it. The debts of this country, aggregating over \$35,000,000,000, were mostly incurred in gold and silver and legal tender paper. Then by the act of 1873 they were made payable only in gold.

The United States is the greatest silver producing country in the world. Naturally, England would like to see the United States foul its own nest and destroy one of its own greatest industries and sources of wealth. But why should we do what England wants us to do?

The chief cause of the fall of the price of silver is the fact that the governments of the world led by the nose by Lombard street, which lives by looking the labor of the world and levying tribute on the toil of universal mankind, having combined for the past twenty years in a bear movement against us.

When silver was shut out of the mints the largest demand for it ceased, and inevitably its value fell. If the governments of Europe and America had issued the same fiat against gold, expelling it from the mints and taking the legal tender power away from it, gold also would have depreciated.

Now, suppose the governments of the world united to pass a law forbidding the manufacture or use of cotton for the purposes of clothing. Is there any man idiotic enough to argue that under those circumstances cotton would not be depreciated and wool appreciated in value?

Passed Away.
Dr. Edward Fee died about 4 o'clock yesterday afternoon at the residence of Wm. Pinniger, of typhoid fever. The doctor had been at death's door for several days and the end was not unexpected. Dr. Fee was a native of Canada, aged 81 years, and a wonderfully bright man.

The hour of the obsequies will be announced in due time.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

IMPORTING TEACHERS.

A Reply to a Trustee's Strictures.

EDITOR JOURNAL.—Your issue of the 22d inst. contains a lengthy plea by a trustee in defense of Nevada's custom of importing teachers.

I will not attempt to discuss the matter with the author of that piece for, judging from the mastery way in which he manipulates Latin phrases, he is a scholar of no mean attainment.

This gentleman's only grievance against our boys as teachers is, that two of them after being elected to teach the Lovelock school were offered positions nearer home that they accepted.

Surely this is surprising, not surprising that the boys should accept better positions than Lovelock, but that they should get them.

This gentleman's abhorrence of the audaciousness of our boys in daring to consult their own welfare before that of the board of trustees is quite natural, no doubt, but whether the whole category of Nevada teachers should be condemned because two exercised a little independence is an open question.

From his plea one would infer that he considers "self interest" a vice confined wholly to Nevada boys.

It really is too bad that those two Nevada boys with whom this trustee had such a doleful experience should be of that reputation and ability as to enable them to get schools nearer home; for the majority of our imported teachers are not hampered in that way.

Nevada as a community is and always has been for protection. We were a strong Republican state until the last election, and only changed because the Republicans would not go far enough to protect us financially from the money manipulators of London. Though so vehement and fearless in our demands for protection we never think of applying the maxim at home; but when we have anything good to give, such as a seat in congress, a professorship in our university, or the principalship of a school it is always filled from beyond our borders.

Although California will recognize the diploma of no institution in this state, not even our university; we meekly accept the certificate of any institution in that state.

What wonder that so many of our boys and girls go to California to be educated when the graduates of our institutions are at a discount not only abroad but in the state.

Yet, strange to relate, in almost every instance where graduates of our university have been given a chance their success has been marked.

Of course we have no objection to trustees importing their cousins, nephews, nieces etc.; but it does seem as though when they have no relations that they might give the Nevada youth a chance.

A TEACHER.

WHITE HORSE MINES.

Ore Shining With Pieces of Gold.

The Jim Blaine shaft is down thirty-five feet now and the ledge is wider than the shaft. With depth has come ore that fairly shines with coarse pieces of gold and specimens are frequent where a pinhead cannot be placed on the rock without touching the yellow metal. It's there and if the Jim Blaine "keeps a coming" lookout for tremendous excitement and a genuine old time mining camp. It makes a man's eyes bulge to see the ore. The lines of the Sacramento bonder have fallen in rich places and there is ore enough on the dump to pay expenses of development for some time to come. The doubtful are no longer doubtful and when Schunert sees the latest we expect to have to put him under a boulder to hold him.
